The modeling section is ready for ORC review.

Thanks,

Gail

Subject: Updates from ORC - WY RH 12/17 - good news

Hi Monica and all.....

Just wanted to let you know that I am pretty much done with the legal section, there are a few placeholder notes that I/we need to address (e.g., waiting for comments/review by several OGC gurus, placeholders to insert and cross reference info from other sections of the notice when they are done, and Paul arranged our fall law clerk proof later this week). So, with those minor updates noted, it's pretty much ready for whatever final formatting you all need to do (hopefully not too much, we have tried to follow Laurel's directions!).

I plan to update the legal section max.gov over the next days/weeks as the missing pieces become available. Let me know if there's a different process I should follow.

Finally, unless I hear differently from you, as I mentioned earlier this afternoon, Wednesday I will review the revised modeling section.

Thanks,

Sara L. Laumann
